### You need to know

If you were born before 1 July 1957, were an [Australian resident \(/Individuals/International-tax-for-individuals/Work-out-your-tax-residency/\)](#) and received income from working, you may be eligible for the mature age worker tax offset. We will automatically calculate your mature age worker tax offset based on the information you provide on your tax return (including this item).

Your mature age worker tax offset is based on your **net income from working** which includes:

- income that is mainly a reward for your personal effort or skills less any related deductions
- income from a business that you carry on, less any related deductions
- reportable fringe benefits for the year (as shown on your payment summary)
- reportable employer superannuation contributions (as shown on your payment summary)
- assessable farm management repayments.

### Completing this item

We will work out your net income from working from any items you completed on pages 1-12 of your tax return. However, we need you to work out your net income from working for items you completed on pages 13-15 of your tax return (supplementary section). To do this, complete the worksheets below.

Some amounts you show will be only part of the amounts you have shown on your tax return (supplementary section).
