

# How to set out tax invoices and invoices

Voluntary standards to help you set out tax invoices as well as invoices that do not include GST.

## WHY STANDARDISE THE WAY TAX INVOICES AND INVOICES ARE SET OUT?

These voluntary standards have been developed in consultation with small business, in response to feedback about their frustration with inconsistent tax invoice and invoice formats.

The standards will help achieve greater consistency in the set out of tax invoices and invoices, making it easier for recipients to locate the necessary information for tax purposes.

➤ For more information about the specific requirements of a tax invoice, refer to:

- *Valid tax invoices and GST credits* (NAT 12358)
- 'Section 03 – Issuing and obtaining tax invoices' in *GST for small business* (NAT 3014).

## WHAT DO I NEED TO DO TO STANDARDISE MY TAX INVOICES OR INVOICES?

Consider the following examples when you next design or select a format for your tax invoices or invoices. Features such as business logos, paper colour, font style, advertising and other additional content that your tax invoices or invoices may have are not affected by these voluntary standards.

- For more information, refer to:
- *GST for small business* (NAT 3014)
  - *Record keeping for small business* (NAT 3029).

ⓘ If you don't use a cash register, consider the following tips:

- avoid printing your invoices on thermal paper wherever possible as the print can fade
- avoid small font sizes as they can be difficult to read, and
- avoid issuing tax invoices on paper which is smaller than A5 or larger than A4 as this can create storage difficulties.
