Extending Additional Tariffs on Goods from Russia and Belarus

Receipts (\$m)	2024-25	2025-26	2026-27	2027-28	2028-29
Department of Home Affairs	-	-

The Government will extend by a further two years, to 24 October 2027, a measure imposing additional tariffs on goods that are the produce or manufacture of Russia or Belarus.

The measure continues to deny Russia and Belarus access to the most favoured nation status through the application of an additional 35 per cent tariff on goods that are the produce or manufacture of Russia or Belarus and had not left for direct shipment to Australia from a place of manufacture or warehouse before 25 April 2022.

This temporary measure is a response to Russia’s illegal invasion of Ukraine, supported by Belarus, and is necessary for the protection of Australia’s essential security interests.

This measure is estimated to result in a negligible increase in receipts over five years from 2024–25.

See also *Support for Ukraine – extending additional tariffs on goods from Russia and Belarus* announced in the 2023–24 MYEFO.

The Government will amend the tax laws to clarify arrangements for managed investment trusts, to ensure legitimate investors can continue to access concessional withholding tax rates in Australia complementing the Australian Taxation Office's strengthened guidelines to prevent misuse. This measure will apply to fund payments from 13 March 2025.

The Government will also defer the start dates of the following measures:

- The 2023–24 Budget measure *Extending the clean building managed investment trust withholding tax concession* from 1 July 2025 to the first 1 January, 1 April, 1 July or 1 October after the Act receives Royal Assent.
- The 2024–25 Budget measure *Strengthening the foreign resident capital gains tax regime* from 1 July 2025 to the later of 1 October 2025 or the first 1 January, 1 April, 1 July or 1 October after the Act receives Royal Assent.

Deferring the start date of the amendments to the foreign resident capital gains tax regime is estimated to decrease receipts by \$50.0 million and decrease payments by \$0.3 million over five years from 2024–25. Deferring the start date of the clean building managed investment trust withholding tax concession is estimated to have an unquantifiable impact on receipts over five years from 2024–25. The Government has already provisioned for the measure to clarify arrangements for managed investment trusts.

Enhancing Tax Practitioner Regulation and Compliance

The Government will strengthen the sanctions available to the Tax Practitioners Board (TPB), modernise the registration framework for tax practitioners and provide funding to the TPB to undertake additional compliance targeting high-risk tax practitioners over four years from 1 July 2025.

This measure will protect taxpayers from tax agent misconduct, including poor and unlawful tax advice, and maintain community confidence in the integrity of the tax system.

It will also support the sustainability of the tax profession by increasing the ease of re-entry for tax and business activity statement agents who take career breaks.

This measure forms part of the Government’s response to the PwC matter and implements recommendations from the 2019 Independent Review of the Tax Practitioners Board.

The Government will consult on the implementation details of the measure.

This measure is estimated to increase receipts by \$47.0 million and increase payments by \$27.4 million over five years from 2024–25.

Personal Income Tax – increasing the Medicare levy low-income thresholds

Receipts (\$m)	2024-25	2025-26	2026-27	2027-28	2028-29
Australian Taxation Office	-	-207.0	-152.0	-145.0	-144.0

The Government will increase the Medicare levy low-income thresholds for singles, families, and seniors and pensioners from 1 July 2024 to provide cost-of-living relief. The increase to the thresholds ensures that low-income individuals continue to be exempt from paying the Medicare levy or pay a reduced levy rate.

The increase to the thresholds is estimated to decrease receipts by \$648.0 million over five years from 2024–25.

The threshold for singles will be increased from \$26,000 to \$27,222. The family threshold will be increased from \$43,846 to \$45,907. For single seniors and pensioners, the threshold will be increased from \$41,089 to \$43,020. The family threshold for seniors and pensioners will be increased from \$57,198 to \$59,886. The family income thresholds will increase by \$4,216 for each dependent child or student, up from \$4,027.

Personal Income Tax – new tax cuts for every Australian taxpayer

Receipts (\$m)	2024-25	2025-26	2026-27	2027-28	2028-29
Australian Taxation Office	-	-	-3,000.0	-6,700.0	-7,400.0

The Government will deliver new tax cuts to every Australian taxpayer from 1 July 2026.

These tax cuts are in addition to the first round of tax cuts for every taxpayer that the Government legislated last year, which have been rolling out since 1 July 2024.

The new tax cuts will provide more cost-of-living relief and return bracket creep. They will also boost labour supply, particularly for women.

Under the Government’s new tax cuts:

- From 1 July 2026, the 16 per cent rate will be reduced to 15 per cent.
- From 1 July 2027, the 15 per cent rate will be reduced further to 14 per cent.

This measure is estimated to decrease receipts by \$17.1 billion over five years from 2024–25.

Restricting Foreign Ownership of Housing

Receipts (\$m)	2024-25	2025-26	2026-27	2027-28	2028-29

Department of the Treasury	-	0.7	0.8	0.8	0.5
Total – Payments	-	3.7	3.8	3.9	3.3

The Government will take action to ensure foreign investment in housing supports the Government’s broader agenda to boost Australia’s housing supply by:

- Banning foreign persons (including temporary residents and foreign-owned companies) from purchasing established dwellings for two years from 1 April 2025, unless an exception applies. Exceptions to the ban will include investments that significantly increase housing supply or support the availability of housing on a commercial scale, and purchases by foreign-owned companies to provide housing for workers in certain circumstances.
- Providing the Australian Taxation Office (ATO) \$5.7 million over four years from 2025–26 to enforce the ban.
- Providing the ATO and Treasury \$8.9 million over four years from 2025–26 and \$1.9 million per year ongoing from 2029–30 to implement an audit program and enhance their compliance approach to target land banking by foreign investors.

The ban will mean Australians will be able to buy homes that would have otherwise been bought by foreign persons, while encouraging foreign persons to boost Australia’s housing supply.

The enhanced compliance approach by the ATO and Treasury to target land banking will ensure foreign investors comply with requirements to put vacant land to use for residential and commercial developments within reasonable timeframes.

This measure is estimated to decrease receipts by \$90.0 million and increase payments by \$14.6 million over five years from 2024–25.

Strengthening Tax Integrity

<i>Total – Payments</i>	-	75.7	144.4	148.8	1,063.6

The Government will strengthen the fairness and sustainability of Australia’s tax system by providing \$999.0 million over four years to the Australian Taxation Office (ATO) to extend and expand tax compliance activities.

Additional funding includes:

- \$717.8 million over four years from 1 July 2025 for a two-year expansion and a one-year extension of the *Tax Avoidance Taskforce*. This supports the ATO’s continued tax compliance scrutiny on multinationals and other large taxpayers.
- \$155.5 million over four years from 1 July 2025 to extend and expand the *Shadow Economy Compliance Program* to reduce shadow economy behaviour such as worker exploitation, under-reporting of taxable income, illicit tobacco and other shadow economy activity that enables non-compliant businesses to undercut competition.
- \$75.7 million over four years from 1 July 2025 to extend and expand the *Personal Income Tax Compliance Program*. This will enable the ATO to continue to deliver a combination of proactive, preventative and corrective activities in key areas of non-compliance.
- \$50.0 million over three years from 1 July 2026 to extend the *Tax Integrity Program*. This will enable the ATO to continue its engagement program to ensure timely payment of tax and superannuation liabilities by medium and large businesses and wealthy groups.

This measure is estimated to increase receipts by \$3.2 billion over five years from 2024–25, and increase payments by \$1.4 billion, including an increase in GST payments to the states and territories of \$402.6 million and \$31.0 million in unpaid superannuation to be disbursed to employees.

The Government will amend the tax law to specifically list the following organisations as deductible gift recipients (DGRs):

- Community Foundations Australia Ltd for gifts received after 30 June 2025 and before 1 July 2030
- Equality Australia Ltd for gifts received after 30 June 2025 and before 1 July 2030

- Foundation Broken Hill Limited for gifts received after 30 June 2025 and before 1 July 2030
- Social Enterprise Australia Ltd for gifts received after 30 June 2025 and before 1 July 2030
- St Patrick’s Cathedral Melbourne Restoration Fund for gifts received after 30 June 2027 and before 1 July 2032
- Sydney Chevra Kadisha for gifts received after 30 June 2025 and before 1 July 2030.

The Government will enable Foundation Broken Hill Limited and Lord Mayor’s Charitable Foundation to retain their specific listing status in the tax law, allowing them to undertake charitable activities unique to their communities that would otherwise fall outside the community charity DGR category. They will no longer be included on a list of entities for DGR endorsement by the Australian Taxation Office as a community charity.

This measure is estimated to decrease receipts by \$4.5 million over five years from 2024–25.

The Government will increase support for hospitality venues, brewers, distillers and wine producers through changes to the alcohol tax settings in Australia, supporting local jobs and regional tourism.

The Government will pause indexation on draught beer excise and excise equivalent customs duty rates for a two-year period, from August 2025. Under this measure biannual indexation of draught beer excise and excise equivalent customs duty rates due to occur in August 2025, February 2026, August 2026, and February 2027 will not occur. Biannual indexation will then recommence from August 2027.

The Government will also increase support available under the existing *Excise remission scheme for manufacturers of alcoholic beverages* (the Remission scheme) and Wine Equalisation Tax (WET) producer rebate (Producer rebate). Currently, all eligible brewers and distillers can receive an excise remission under the Remission Scheme up to a cap of \$350,000. All eligible wine producers can currently receive a WET rebate up to a cap of \$350,000 under the Producer rebate. This measure will increase the caps for all eligible brewers, distillers and wine producers to \$400,000 per financial year, from 1 July 2026.

This measure is estimated to decrease receipts by \$165.0 million over five years from 2024–25.

The Government will provide \$407.5 million over four years from 2025–26 (and \$7.2 billion from 2029–30 to 2035–36) to jurisdictions which have signed Better and Fairer Schools Agreement (Full and Fair Funding 2025–2034) Bilateral Agreements, including New South Wales, South Australia, Tasmania and the Australian Capital Territory. The agreement sees the Commonwealth increase its share of the Schooling Resource Standard to 25 per cent by 2034–35, putting schools on a path to full and fair funding.

In exchange, jurisdictions will end their use of the 4 per cent provision which allowed them to claim things like capital depreciation. Negotiations with jurisdictions who are yet to sign the Bilateral Agreement are continuing, with funding being held in the Contingency Reserve pending finalisation of negotiations.
